

# ENVIRONMENTAL POLICY

**Redstone Resources Ltd (RDS)** believes that responsible environmental management and superior environmental performance is in the best interests of its business, contractors, shareholders and the communities in which it operates. This will be achieved through leadership and diligently applying innovative management systems and controls.

To enable environmental objectives to be achieved, RDS will;

- Implement and continuously improve environmental policies, procedures and management plans that identifies, assesses and effectively controls environmental risks to the business and community,
- Integrate environmental considerations into all aspects of the company's activities,

- Communication, education and promotion of the key environmental issues and management controls to RDS employees and contractors,
- Manage all processes and equipment to avoid or mitigate adverse environmental impact, minimise associated liability, prevent pollution and enhance social benefit,
- Require high environmental standards and compliance from all contractors and service providers,
- Initiate regular audit and assessment programs and embrace recommendations for improvement,
- Comply with all applicable legal and other requirements as a minimum standard.
